WORK EXPERIENCE

INTERN – Setec MK   January 2019 – April 2019

Worked on designing the website for Setec MK, learning about the basics of front-end web development and starting to feel comfortable using HTML and CSS. After learning the basics of JavaScript and JQuery, I progressed on working on the front-end development of the company's web application (inner-company use).

INTERN – AITONIX   November 2019 – March 2020

Worked on the front-end development (design and functionality) of a web application, hosted by AITONIX, used by several public enterprises in Macedonia, such as :

- Water Supply and Sewerage - Skopje
- Public Transport - Skopje
- Communal Hygiene - Skopje etc.

My main focus was on developing the web application for the Water Supply and Sewerage - Skopje, a project on which I gained a great deal of knowledge and experience with JavaScript, JQuery, Bootstrap and code versioning with GIT Desktop, but also taught me the basics of back-end development using .NET, C# and MySQL.

INTERN – NextHop MK   September 2020 – December 2020

Started learning about front-end development of mobile applications, using the fairly new Flutter framework. I started off with the basics, learning on a real project, called Human Support System.
After I started feeling more comfortable and learned a lot about Flutter, I started working on an already existing, and very popular mobile application, called Power Sport System. Beside the design and layout of the application, I also developed some of its functionalities, such as the live, road camera streams and the tracking of the transactions made by the user.

Front-End Flutter Developer – NextHop MK   January 2021 – Current

After the internship at NextHop, I continued working for them, on various projects, including the previously mentioned Human Support System and Power Sport System mobile applications. However, my main focus is on developing a mobile application for the yet to be opened East Gate Mall in Skopje. I started working on this application from scratch, and I am fully involved in drawing up the layout, as well as implementing functionalities.

EDUCATION

Faculty of Electrical Engineering & Information Technologies (field of telecommunications) - Current, last year of studies

Web Academy Everest - Front-End Developer   September 2020 - Current

LANGUAGE SKILLS

Mother tongue(s): MACEDONIAN

Other language(s):

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	C2	C2	C1	C1	C2

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user
Common European Framework of Reference for Languages - Self-assessment grid

DIGITAL SKILLS

Front - End Web Development

- HTML - 100%
- CSS - 80%
- JavaScript - 60%
- Bootstrap - 60%
- JQuery - 40%
- React JS - 20%

Front - End Mobile Development

- Flutter - 80%

Code Versioning

- GIT Desktop - 80%
- Azure - 50%

Basic Knowledge

- MySQL
- .NET
- C#

Other Computer Skills

- Microsoft Office Tools - 100%

Digital skills - Self-assessment grid

PERSONAL TRAITS

- Good written and oral communication
- Helping other people
- Punctuality
- Eagerness to learn new things
- Hard working
- Teamwork
- Flexibility
